Energy Efficiency Upgrades

An earth-friendly way to maximize the efficiency & performance of acrylic blocks

SunBlock™

SunBlock™ limits solar heat gain by adding tinted UV inhibitors to the resin. Ideal for warm climates!

E³ Triple Glaze

E³ Triple Glaze increases insulative power by adding an extra panel of acrylic in the center of each block. Ideal for cold climates!

E³ SunBlock™

E³ SunBlock™ combines the solar heat reduction of SunBlock™ with the insulative power of E³ Triple Glaze, providing the most energy efficient acrylic block to date. Ideal for all climates!

Energy Star® Qualified in most areas.
